Subject: Non-disclosure and fraudulent deception

To whom it may concern,

Where intent of my words belongs solely with me, assumptions otherwise are fraud. Find attached two documents written by myself outlining the nature of the fraud that has been perpetrated, first upon my parents (deceased) with non-disclosure of the facts surrounding registering an offspring, and perpetuated, through them, to me, where this fraud is brought into view whereas the CROWN/VATICAN is concerned and guilty of misleading by means of non-disclosure of the ramifications of all licenses, birth certificates, negotiable instruments etc. by church or state, that they felt, but we're never obligated to enter into and never would have entered by free will choice if full disclosure had been offered. As a result of that deception/non-disclosure, my parents unknowingly aided and abetted myself and my sister into lifelong fraud/contempt of court in all our actions with any and all use of the NAME sold/registered to the CROWN/VATICAN my sister and I were made to believe was ours when, in fact, is CROWN COPYRIGHT, as stated clearly on the copy of the birth certificates where any use of that NAME is fraud, false identity, stolen identity, contempt of court etc. ad infinitum. For further clarification of this, the attached documents outline this clearly where it has been my wish to not commit fraud where the AGENTS of your state insists I do based on its ignorance of this fact and are thus furthering the commissions of fraud via all and any documents thereafter. This information was duly confirmed by the British High Consulate in Ottawa Canada whereupon I was able to procure an emergency passport to take my dad's ashes back home to Ireland in 2011. Also note that I have my own name and is not, nor ever will be given (gift) to any state or church in any legal sense and does not resemble the one owned by the CROWN COPYRIGHT where a mistaken identity or gender may or is concerned. I look forward to your correcting this fraud immediately and await correspondence confirming your actions in this matter lest the fraud leave you with "unclean hands", kate.

My fiduciary Mother and beneficiary Father, now deceased, gave me my voice where I WILL speak for them as their last will and testament as the true fruit of their divine contracts/labours/intent where they were wilfully defrauded, without disclosure, for the entirety of their lives where I was aided and abetted to commit fraud by them as a result of their/my bein wilfully deceived .
